

Proposed improvements to the North Edinburgh Path Network

Introduction:

The North Edinburgh Path Network is a highly popular network of off-road paths for walking and cycling. The North Edinburgh Path Network connects to many destinations in the north and centre of the city and enables everyday walking and cycling journeys.

A number of improvements are required to bring the Path Network up to a higher standard and make it more attractive for walking and cycling use.

The Council is reviewing potential improvements to the North Edinburgh Path Network including:

- Lighting ;
- Surfacing;
- Access Points;
- Drainage; and
- Vegetation encroachment.

Proposals:

A number of potential improvements have already been identified and prioritised for implementation when funding is available.

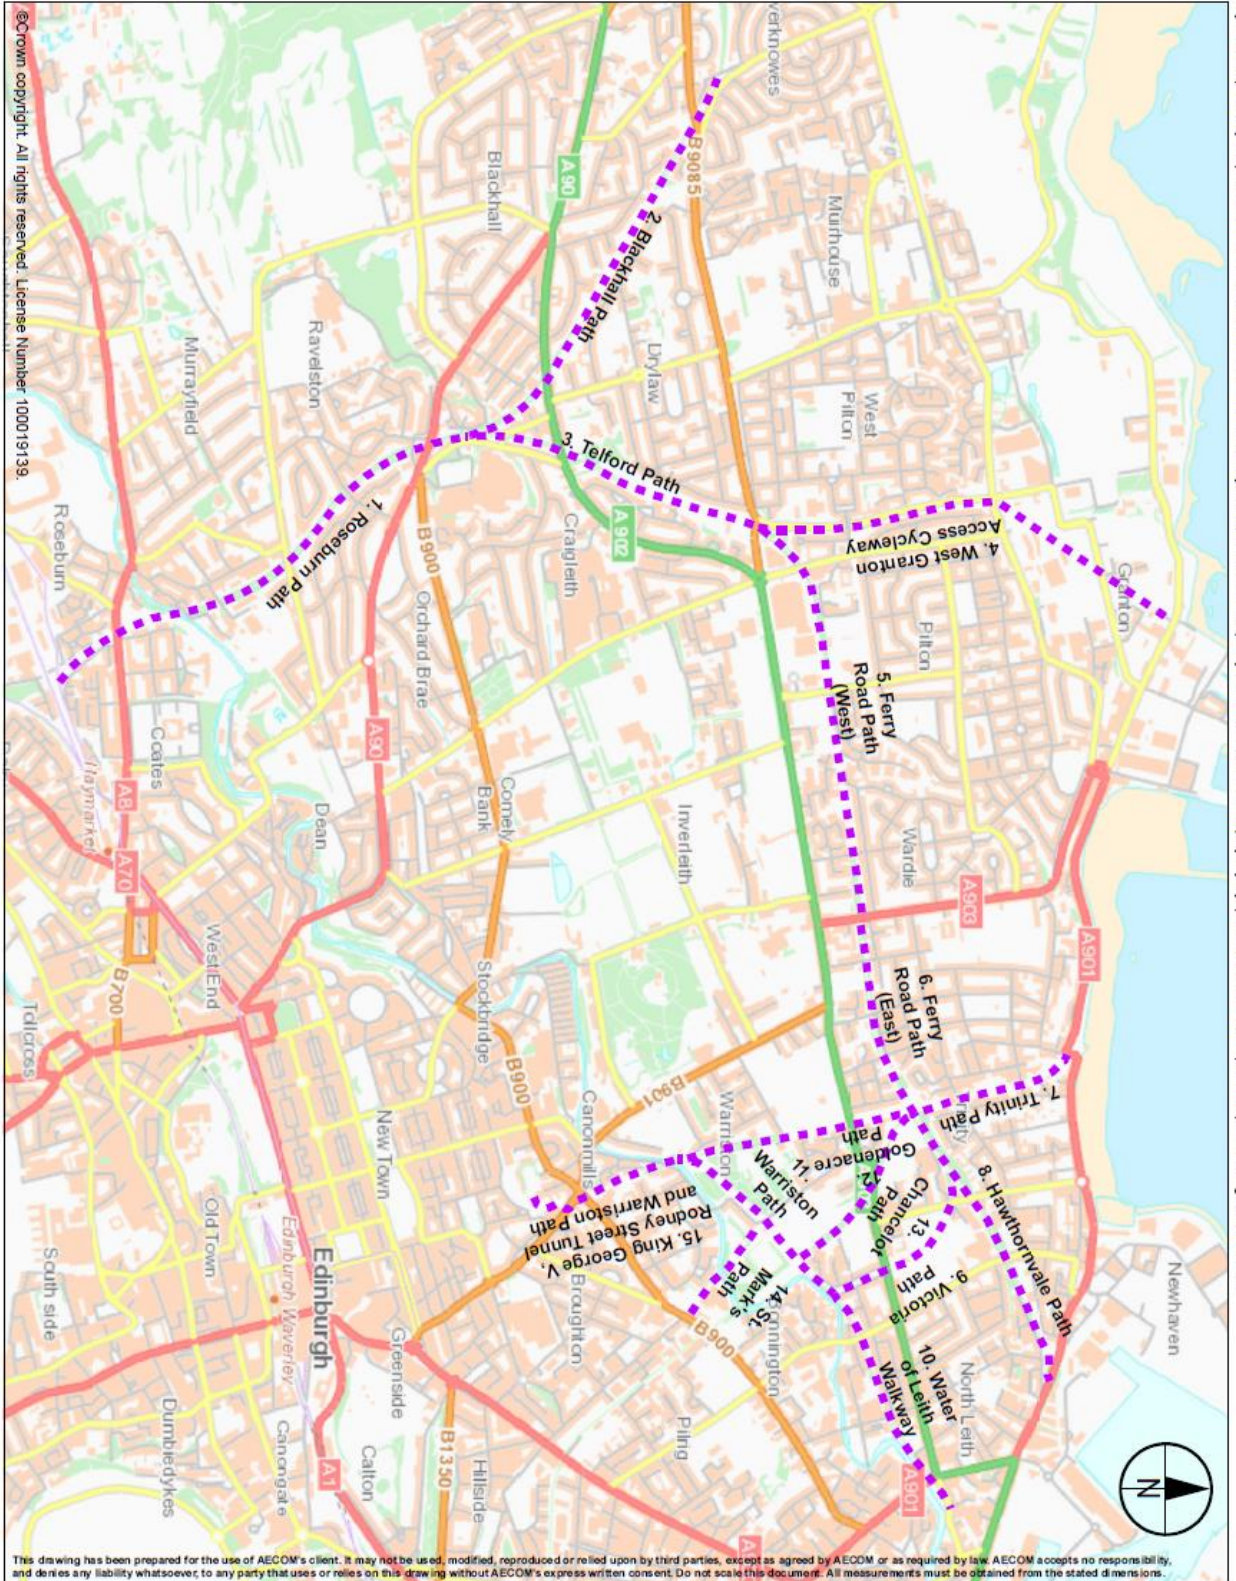

Consultation:

The Council wish to ask for your suggestions on where improvements should be considered on the North Edinburgh Path Network, in particular for the categories listed above. Locations of proposed improvements can be seen on the Consultation Hub, along with a short survey.

The Council are consulting on the proposals before any of these improvements are progressed to a detailed design. The Council would welcome any comments you have by e-mail to EdinburghCycling.uki@aecom.com

The map on the next page shows the extents of the North Edinburgh Path Network currently being considered.
