AMENITY SPACE SURVEY

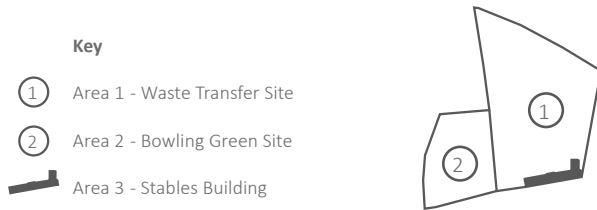

If you are willing to be contacted by the Council to discuss these proposals you may add your contact details below;

Name:

Email:

Tel:

Maximising amenity space on Area 2 – the bowling greens site has been a recurring theme throughout the consultation process. You will see some of the suggestions for open amenity space on the boards in response to previous consultations. The current proposals respond to this, providing approximately 3,500sqm of open amenity space.

The Council would like to know if you have ideas of how this green space could be enhanced and if you are aware of any groups, or if you are a representative of a group who may be able to access funding, and who could take it on through a lease arrangement with the Council. If you have any ideas we would like to hear your comments by answering the questions below;

01 What is the name of your group?

02 What do you propose as a use for the amenity space and how will it benefit the community?

03 Do you have access to funding?

04 How will the amenity space be maintained and do you have funding for this?

If you need more time to fill out this form, you can complete later and email it to; Powderhall@edinburgh.gov.uk
